

# NATIONAL INTELLIGENCE SEMINAR

# 2018

“ **STRENGTHENING THE PARTNERSHIP BETWEEN  
INTELLIGENCE PROFESSIONALS AND TECHNOLOGY** ”

**WEDNESDAY  
30 MAY 2018**

Modern intelligence professionals are challenged by the growing volume of information, and the speed with which this information is created and distributed in the course of policy development, planning and operations. Increasingly, technology is having a significant impact on intelligence workflow, skills, and organisation, with analysts using a range of technologies to analyse and add value to information in a timely manner. The AIPIO National Intelligence Seminar 2018 will explore the strengthening partnership between humans and technology in the field of intelligence through three activities: a review of industry good practices by KordaMentha; an interactive practitioner workshop based on a real-world case; and a review of workshop findings by expert panel. AIPIO will draw on these findings to present a White Paper at our National Conference – Intelligence 2018.

#### **KORDAMENTHA OFFICES SYDNEY**

Level 5, Sydney Chifley Tower, 2 Chifley Square, Sydney  
**5PM - 8PM**
