

# HOW TO ORDER YOUR CUSTOM WOVEN TOWEL

A special weave gives this towel its unique texture, pattern, and soft feel. In addition these custom woven towels are among the heaviest and plushiest in the industry. Our standard 16" x 25" towels are over 4 lbs. per dozen finished weight. That is approximately 30% heavier than most standard towels of a similar size. Unless specified when ordering, all towels come with matching brass eyelet and hook.

## The following weaving rules apply

1. Minimum order is 72 towels per design
2. Refer charts below for colour combinations available, when ordering you will receive an assortment of towels in that colour combination. Because of the way the weaving looms are programmed you cannot add or substitute a yarn colour from one combination into another.
3. One design layout will be repeated will be repeated throughout a towel order. For your convenience we have pictured below a number of possible design layouts. **REMEMBER** only one design per order.
